

# Guide: How to change the TwoInOne Silence KMDA 7272/KM 7473 from U (recirculation) to A (vented) mode:

## From Plug&Play Recirculation mode to Vented mode

1. Remove Plug&Play adapter (✘)
2. Put the activate charcoal filter aside (✘)
3. Install the KMDA with connection to exhaust air duct system - Miele Flat ducting set for vented mode can be used: DFKS-AR, mat.no 12226910. (+)
4. Change programming P17 from C:00 to C:01 (Follow steps in user manual “Changing the programming”)
